

## Week 1

In the Netherlands we say a new year a new start. Yes, we start a new year with a new page and the edging of week 1. However we continue with guipure laces. This 4th edging is designed by Regina Siebdraht and made by Lia Baumeister.

You need 13 pairs with linen 50/2 or similar.

The edging should cause no problems. You can make the tape as you like. The bows are made in cloth stitch with twists between every 2 pairs. The outside of the bows are made as a straight edge, but of course you can choose to do otherwise.

We wish you a happy 2015 with lots of lacemaking fun and of course every week a new edging or insertion
