

Week 5

In this insertion the previous insertions seems to come together. The diamonds, a little bit smaller and grouped together and the Rose ground or Honeycomb Net really as a ground beside the motifs. The diamonds and the little square in the middle are surrounded by a gimp. The designer this week is Bep (Elma) Hoogerbrugge. You need 16 pairs of bobbins with ie. Lana 12 and 2 pairs with cotton perlé nr. 5..

As the pattern is drawn as a diagram no separate diagram is given. The light lines stand for the pairs, the a little heavier lines in the diamonds for the workers and the heavy line for the gimp.
