

Week 40

This week a edging with a fan. It is my design. I used the triangular ground and the torchon ground with extra twist. The fan is made in cloth stitch with a whole stitch at the outer edge.

You need 26 paires of bobbins with DMC fil a dentelle 80 or similar.

The diagram:

To shorten the explanation of the fan and the stitches I made a drawing of the course of the threads for the complete edging.
