

Week 5

We return for a little while back to the Torchon to prepare for the next series. This pattern originally belonged to my mother. Only the first motif was drawn completely. I made a new pattern and diagram in black and white for you. The ground is worked with honeycomb stitch, but of course it is also possible in another stitch. In the old pattern the diamond is marked with a L, which means that it was done in cloth stitch. Feel free to use another stitch if you like.

The fan is worked in cloth stitch with a whole stitch on the outside and in middle rows. Twist once extra between the two outer pairs.

You need 20 pairs of bobbins with DMC fil à dentelle 80 or similar.

Enjoy!
